Solar SINE WAVE INVERTER

Range
100W - 100KW

Solar Energy, offers the best alternative energy solution. The freely and abundantly available light from the SUN can be utilized as Photovoltaic Energy or Heat (Thermal) Energy through special devices developed and manufactured by sophisticated and high technology processes. Solar Inverter is cost effective and easy to install. It has potential to cater the growing needs of the power.

- › Power Quality Audit through software
- › Scheduled Shutdown
- › Digital & Graphical representation of parameters
- › SMS & e-mail Alerts

FEATURES

- › DSP Based Design
- › Pure Sine Wave Output with low Total Harmonic Distortion (TDH)
- › High End Microcontroller based design.
- › High Efficiency & High reliability
- › Pulse by pulse current limiting with auto-reset resulting in efficient overload and short circuit protection.
- › Battery pole reversal protection & battery deep discharge protection.
- › High surge capability (upto 300%) for starting heavy load.
- › Noiseless in operation
- › User- friendly display
