

**E – SELMET****VITAMIN E + SELENIUM  
A WATER SOLUBLE ANIMAL FEED SUPPLEMENT****COMPOSITION :**

|                    |         |
|--------------------|---------|
| Each ml. Contains: |         |
| Vitamin E          | 100 mg  |
| Sodium Selenite    | 500 mcg |

**ADMINISTRATION :**

METHOD: With drinking water or with feed

**RECOMMENDED USAGE PER DAY**

|                         |                                 |
|-------------------------|---------------------------------|
| Chicks/Broilers/Layers: | 75ml – 150 ml per 1000 birds    |
| Breeders                | : 200ml – 250 ml per 1000 birds |
| Horses / Cows           | : 30ml-40ml / head              |
| Sheep's / Goats         | : 10ml – 15ml / head            |

**OTHER SPECIES :** 5ml. for 10-20 kg of live weight

**DURATION:** Generally for 5 days or as prescribed by Veterinary physician.

**INDICATIONS :**

1. Leg Weakness (muscular Dystrophy)
2. Stiffness in lambs & calves.
3. Exudative diathesis
4. Encephalomalacial conditions
5. Reduced Fertility
6. Lower Hatching results
7. Rough hair coats
8. Dyspnea
9. Reduced immunity

**PRESENTATION :** 100 ml. & 500 ml.

**LIVMET****LIVER STIMULANT  
A WATER SOLUBLE ANIMAL FEED SUPPLEMENT****COMPOSITION :**

|                             |         |
|-----------------------------|---------|
| <b>Each 10ml. Contains:</b> |         |
| Choline Chloride            | 1500 mg |
| L-Lysine                    | 125 mg  |
| dl. Methionine              | 125 mg  |
| d-Biotin                    | 50 mcg  |
| Inositol                    | 50 mg   |
| Vitamin B-12                | 100 mcg |

**ADMINISTRATION :**

**METHOD :** With drinking water.

**RECOMMENDED USAGE PER DAY**

|                     |                            |
|---------------------|----------------------------|
| <b>POULTRY:</b>     |                            |
| Prophylactic        | : 10ml/100 birds           |
| For Growth          | : 20ml/100 birds           |
| In Acute conditions | : 2 ml-3 ml/Litre of water |

**PIGS/COWS/BUFFALOES :** 10ml-20ml of Liver Plus/Head

**DURATION :** 7 days or as prescribed by veterinary physician.

**INDICATION:**

1. Accute fatty Liver and Kidney conditions
2. Retarded growth in poultry specially in Broilers
3. Low feed conversion
4. Reduced feed Intake.
5. Perosis
6. Aflotoxicosis
7. Dull Flock condition in poultry.

**PRESENTATION :** 500ml., 1 Ltr & 5 Ltrs in HDPE Containers

**VITAMET – A****VITAMIN A  
A WATER SOLUBLE ANIMAL FEED SUPPLEMENT****COMPOSITION :**

|                    |           |
|--------------------|-----------|
| Each ml. Contains: |           |
| Vitamin A          | 100000 IU |

**ADMINISTRATION :**

**METHOD :** With drinking water

**RECOMMENDED USAGE LEVEL**

|               |                          |
|---------------|--------------------------|
| Chicks        | : 3 ml – 5 ml/100 birds  |
| Layers        | : 5 ml – 10 ml/100 birds |
| Broilers      | : 5 ml – 10ml/100 birds  |
| Breeders      | : 10 ml – 15ml/100 birds |
| Cows/Bufloes  | : 20 ml – 25 ml/Head     |
| Goat/Sheeps   | : 5 ml – 10 ml/Head      |
| Horses/Camels | : 30 ml – 40 ml/Head     |

**INDICATIONS :**

1. Retarded growth
2. Lower Egg production
3. Lower hatching results
4. Poor fertility
5. Poor visibility

**DURATION :** 7-10 days period is generally recommended or as recommended by the Veterinary Physician.

**PRESENTATION :** 500 ml HDPE Container

**VACCINE STABILIZER EFFERVESCENT TABLETS****COMPOSITION :****VACCITAB (20 g)**

|                                    |         |
|------------------------------------|---------|
| Each Effervescent tablet contains: |         |
| Sodium thiosulphate                | 1.507 g |
| Disodium EDTA                      | 0.01 g  |
| Polarillin potassium (Kyron 314)   | 1.0 g   |

**VACCITAB (10 g)**

Each Effervescent tablet contains:  
Sodium thiosulphate

**VACCITAB (5 g)**

|                                    |          |
|------------------------------------|----------|
| Each Effervescent tablet contains: |          |
| Sodium thiosulphate                | 0.377 g  |
| Disodium EDTA                      | 0.0025 g |
| Polarillin potassium (Kyron 314)   | 0.25 g   |

**VACCITAB (3 g)**

|                                    |          |
|------------------------------------|----------|
| Each Effervescent tablet contains: |          |
| Sodium thiosulphate                | 0.226 g  |
| Disodium EDTA                      | 0.0015 g |
| Polarillin potassium (Kyron 314)   | 0.15 g   |

**Enhances dosing efficacy due to following effects:**

- Effective water softener: Makes hard water suitable for drinking.
- Strong Chlorine neutralizers & buffering agent: maintains ideal pH of 5.5 to 6.5 for vaccines, medicines & probiotic dosing.
- Strong quenching agent: Quenches the heavy metal contaminants like iron, lead, arsenic, mercury etc to make drinking water safer.
- Does not contain: Skimmed milk powder or other ingredients of animal origin.
- Food grade approved blue dye: Colors the tongue, beak & crop for easier identification of vaccinated birds.

**WATER DISINFECTANT TABLETS  
FOR POULTRY / AQUA / DAIRY INDUSTRIES  
(NADCC BASED EFFERVESCENT CHLORINE TABLETS)****USAGE :**

A complete disinfectant which is used for rendering water free from pathogens. It is used as bactericidal, virucidal, algicidal and fungicidal for all types of water utility.

**Poultry Industry:**

For cleaning cum sanitizing water based disinfectant.

**Fishery Industry:**

End-point disinfection of product contact and non-product contact surface.

**Dairy Industry:**

To prevent mastitis, and inflammation of mammary gland.

**COMPOSITION :**

Each tablet contains: Sodium Dichloroisocyanurate 1.75 g

**FEATURES :**

- It is available in easy to store and handle tablet form.
- AQUA SAFE releases 64.5% available chlorine in form of hypochlorous acid, which is a strong disinfectant even near neutral pH of 6.2.
- No bad odour or residual test.
- Completely water soluble.
- Recommended by FAO/WHO expert committee as: safe disinfectant.

**MODE OF ACTION :**

On Contact with water, release Hypochlorous Acid (HOCL) with proven broad spectrum biocidal activity against gram positive and gram negative bacteria, spores, fungi, protozoa and viruses.

That is how AQUA SAFE not only reduces the bacterial load but it also effectively removes residual proteins from egg shell surfaces and body surface of birds.

Triple action of disinfecting, cleaning and deodorizing simultaneously.
